New Mexico Junior College

WELCOME

Training & Outreach is a division of **New Mexico Junior College (NMJC)** for community and workforce resources specializing in courses to meet the needs and interests of our surrounding area. Choose from a variety of job training certified skills to start or advance your career. Here are a few of the career training courses we offer: clinical medical assistant, dental assistant, instrumentation and controls, oil and gas technology, transportation training, and workforce training. NMJC Continuing Education offers life enrichment courses for adults and children. Continuing Education, the New Horizons Foundation, and the Small Business Development Center are located in the Training & Outreach facility.

We have adjusted our courses to abide by COVID-19 safety protocols. We are following campus, local, state, and national orders. Face-to-face classes are limited for social distancing, temperature checks, and masks are required.

We know the importance of job training to obtain quality employment. With the best of intentions, please note courses may be subject to change, postponement, modified or canceled.

How do I find course information online?

Go to www.nmjc.edu, then click on the *Training and Outreach* icon.

How do I register?

You can register online for many courses, but some have specific requirements for enrollment, and you will need to speak with the facilitator or director.

Are there discounts or financial aid available?

Financial Aid does not apply to non-credit workforce training, however, as funds are available, we do offer some discounts.

When should I register?

Many courses have attendance limitations, so register for your selected course as soon as possible.

How am I notified if a class is canceled?

You will be notified by email, text, or phone call. You *will* receive a refund for canceled classes.

Transportation Safety Training

New Mexico Junior College

Workforce Training Health Careers

Are there any educational pre-requisites to register for these trainings?

Interested students should have, or be pursuing, a high school diploma or GED.

Does financial aid cover the cost of these programs?

These classes are short-term workforce trainings and are NON-CREDIT and do not go towards a college degree. Financial Aid does NOT apply to the health career trainings.

Are there any discounts available?

As funds are available, some discounts are available, BUT an application must be requested.

When do I have to pay the registration fee? Do you hold spots?

The entire course fee is due at registration. We do not offer a payment plan and spots are not held for health career trainings.

Where do I get my books for these programs?

Textbooks are included with your course fee, and you receive them on the first day of class.

Do I have any costs outside of the course fee?

Costs are noted with each program. In addition to the course fee, students are responsible for purchasing their own scrubs (CMA, DA, & PT programs); CPR training (CMA); and national exam after the program (CMA & PT).

What happens after I finish the program?

Course completion does not guarantee licensure or certification as this is governed by outside agencies. If you successfully complete the program, you will receive a certificate of completion from New Mexico Junior College and have an opportunity to sit for a national exam (CMA; PT; EMT-B; A-EMT) to earn your certification.

**Workforce Training
Health Careers**

CLINICAL MEDICAL ASSISTANT

Program Cost \$2,600

Textbooks included in cost

140 Classroom Hours + 160 Clinical Externship Hours

The Clinical Medical Assisting program is designed to prepare students to function as professionals in multiple healthcare settings. Medical assistants with a clinical background perform various clinical tasks, including assisting with the administration of medications, with minor procedures, performing an electrocardiogram (EKG), obtaining laboratory specimens for testing, educating patients, and other related tasks. Job opportunities are prevalent with physicians' offices, clinics, chiropractors' offices, hospitals, and outpatient facilities.

This course will prepare you for the National Health Career Association (NHA) Certified Clinical Medical Assistant (CCMA) national certification examination.

Students should have, or be pursuing, a high school diploma or GED.

To register, or for more information, contact us at: 575.492.4713

DENTAL ASSISTANT

Program Cost **\$1,200**

60 Hour Course

Join a career in dental assisting! It ranks as the fourth fastest growing occupation in the healthcare technician field. Students will learn all areas of administrative and clinical dental assisting, focusing on the responsibilities required to function as an assistant in a dental practice including:

- Introductory oral anatomy, dental operator, and dental equipment
- Introductory tooth structure, including primary and permanent teeth
- Dental hand-pieces, sterilization, and much more

This course will prepare you for the Dental Assisting National Board (DANB); Radiation Health and Safety (RHS) exam; and the DANB – Infection Control Exam (ICE).

Students should have, or be pursuing, a high school diploma or GED.

To register, or for more information, contact us at: **575.492.4713**

**Workforce Training
Health Careers**

PHARMACY TECH

Program Cost **\$1,400**

50 Hour Course

Prepare for a career as a pharmacy technician and pursue certification through state and national exams, including the Pharmacy Technician Certification Board's PTCB exam. Course includes:

- Pharmacy calculations
- Medical terminology specific to the pharmacy
- Skills to read and interpret prescriptions
- Review of the top 200 drugs
- Skills to identify drugs by generic and brand names
- Dosage calculations, I.V. flow rates, drug compounding, and dose conversions
- Dispensing of prescriptions and inventory control

Students should have, or be pursuing, a high school diploma or GED.

To register, or for more information, contact us at: **575.492.4713**

EMT BASIC TRAINING

225 Hour Course

Introduction to the field of prehospital emergency medical care. Emphasis is placed on recognition and basic life support treatment of emergency medical and traumatic conditions. After successful completion of the course, the graduate is eligible to challenge the National Registry of EMT's Exam and to apply for licensure with the State. The student will be performing the following functions at the minimum entry level:

- Assess the nature and seriousness of the patient's condition or extent of injuries to recognize requirements for emergency medical care
- Administer appropriate emergency medical care based on assessment findings of the patient's condition
- Lift, move, position, and otherwise handle the patient to minimize discomfort and prevent further injury
- Perform safely and effectively the expectations of the job description

Program Cost **\$1,725**

ADVANCED EMT TRAINING

300 Hour Course

This course expands knowledge learned in the **EMT-Basic** course, building on assessment of sick and injured patients. Students will learn advanced treatment of patients. This course meets or exceeds the National EMS Education Standards for the AEMT and New Mexico Scope of Practice for the EMT-Intermediate. Students must have a current New Mexico EMT-Basic License to enroll.

Program Cost **\$2,100**

To register, or for more information, contact us at: **575.492.4713**

Workforce Training

**Workforce
Training**

SERV SAFE: MANAGERS

Class Cost \$125

8 Hour Course

Changes in the food code have made it a **MANDATORY** requirement for establishments that serve or prepare food to have a “certified food production manager” on staff. In addition to the food manager, they must also have a designated “person in charge” present at all times during operations.

The New Mexico Restaurant Association requires that the “person in charge” should be trained in the same requirements as found in the food production manager’s course. This new requirement covers restaurants, bars, hotels, food trucks/carts, and ANY permitted food establishments that are licensed by the state.

Books are provided for student use and there is an exam at the end of the course.

To register, or for more information, contact us at: 575.492.4713

MICROSOFT OFFICE TRAINING

Class Cost **\$99**

8 Hour Classes

All classes are one day from 8:30am – 4:30pm.

Laptop computers are provided as well as a workbook.

Courses taught by Certified Microsoft Office Expert Instructor, Darla Cloud.

Courses to choose from:

- MS Excel: Level 1 (Beginner)
- MS Excel: Level 2 (Intermediate)
- MS Excel: Level 3 (Advanced)
- MS PowerPoint: Creating Powerful Presentations
- MS Word: Using Word Effectively
- MS Access – Level 1

To register, or for more information, contact us at: **575.492.4713**

**Workforce
Training**

INSTRUMENTATION & CONTROLS

\$125 Per Month Usage Fee

Modules Offered:

Core Knowledge and Skills

Electrical Maintenance Technician

Mechanical Maintenance Technician

Electrical/Mechanical Technician

Programmable Logic Controllers (PLC)

Process Control Systems

You work at your own pace! Take as many or as few courses as your schedule permits! Great training to begin a career in the fields of Programmable Logic Controllers (PLCs) and Automation in unlimited industries such as oil, gas, manufacturing, and more to make a potential starting salary of \$60,000 annually. A sample of class options include: AC and DC Electrical Systems, Applied Mathematics and Measurements, Basic Controls, Basic Electrical Circuits, Conductor Types and Sizing, Electrically Controlled Hydraulics, Motor Transmission Systems 1, 2, and 3, Overcurrent Protection Device Types and Sizing, Sensors, and Transformers.

To register, or for more information, contact us at: **575.492.2649**

LINEMAN UTILITY TRAINING

In Development

Start a career as an Apprentice Linemen as a valued member of a team providing electrical power distribution/transmission to maintain and expand our area power needs.

This program consists of classroom training and field training at the NMJC Lineman Training Ground. Instructors include: experienced linemen, safety professionals, and electrical instructors. NMJC Lineman Utility Training Program consists of:

- Climbing School
- Ground Man School
- CDL Training
- Workplace Safety (OSHA 10)
- Navigating the Workplace (Resume writing, interview skills, MS Word & Excel)
- CAST EEI Prep
- Basic Electrical Circuits

Workforce Training

Oil & Gas

Workforce Training Oil & Gas

INTRODUCTION TO THE OIL & GAS INDUSTRY

Program Cost **\$495**

Two-Day Program

Introduction to the Oil and Gas Industry is a two-day course designed to provide a big picture overview of the oil and gas industry. This training is delivered by an industry professional with over thirty years of oilfield experience. It includes a tour of a safe oil and gas production site located on our campus. A view of the big picture is extremely valuable for non-technical personnel, such as those working in customer service, HR, IT, legal, administration, insurance, and finance. Business managers will find this valuable as they will gain a better understanding of the needs of their oil and gas industry clients.

Topics covered in this oil and gas training include upstream, midstream, and downstream operations along with a brief overview of O&G history and terminology. The final topic is crude oil economics, which explains the factors that determine the price of oil and gas.

During the class, events in the news are discussed and explained--these include: the price of oil, the Keystone and Dakota Access pipelines, hydraulic fracturing, horizontal drilling, crude oil exports, liquified natural gas, oilfield related seismicity, oilfield emissions, flaring, and alternative energy.

To register, or for more information, contact us at: **575.492.4703**

LEASE PUMPER TRAINING

Program Cost **\$1,500***

**Early Registration Discount - \$300 off, approval required*

10 Day Course, 2 Phase Hybrid Classroom and Field Training

This is a fast-paced two-week course taught by an experienced team of instructors combined of lease operator, petroleum engineer, computer specialist, and CSHO safety professional.

Phase One: Classroom focus on oil and gas production operations, computer operation, along with health/safety/environmental (HSE) training

Phase Two: Hands-on skills associated with operating producing wells and tank batteries at the outdoor NMJC Lease Pumper Site

Course concludes with a written test

Entry level Lease Operators: average approximately \$65,000 annually during their first year

To register, or for more information, contact us at: **575.492.4703**

**Workforce Training
Oil & Gas**

MATH 4 THE OILFIELD

Class Cost \$80

6 Hour Course

Math 4 the Oilfield is designed to help current and future oilfield workers understand the simple but very unique calculations used every day in the oil and gas industry. The course is focused on utilizing an engineering handbook to find and apply data, and was created to meet a need expressed by oil company management when seeking new employees. Accurate calculations are required for both surface and downhole work. This is an excellent math review prior to both ***Lease Pumper*** and ***Well Control training***—both require basic math skills!

Class includes: basic math review, unit conversions, tank capacities, daily lease production, sucker rod pump displacement, tubing, pipe, casing, and hole volume, annular volumes, hydrostatic pressure calculations, chemical usage, and chemical feed rate.

Instruction for this training is provided by an experienced engineer.

To register, or for more information, contact us at: **575.492.4703**

WELL CONTROL

Class Cost **\$850**

NMJC offers International Association of Drilling Contractors (IADC) Well Control certifications. This high-quality training for drilling, workover, and completions personnel is provided in a local setting, close to home, by experienced IADC certified instructors.

Choose from four distinct levels of certification:

Driller: designed for drillers

Drilling Supervisor: designed for drilling supervisors

Workover Well Control - Intervention Level: designed for well-site managers

Workover Well Control - Operator Level: designed for workover unit operators

To register, or for more information, contact us at: **575.492.4703**

TEEX OSHA ENVIRONMENTAL, HEALTH AND SAFETY

CERTIFICATE
PROGRAMS

NMJC Training & Outreach serves as a host training facility for the TEEX Region VI to bring oil and gas safety training to the heart of the Permian Basin.

These courses provide the knowledge and skills necessary to create a safe workplace for employees and to maintain voluntary compliance with OSHA regulations. Taught by professionals for professionals, instructors are experts with years of field experience in compliance training for construction, disaster management, general industry, hazardous materials, instructor development, leadership and supervision, maritime, oil and gas/petrochemical and safety.

If you are interested in pursuing your Certified Safety & Health Official Certification in General Industry and/or Construction, we offer 90+% of the classes at NMJC in order to complete that program.

WORKSHOPS/EVENTS READY TO GET STARTED?

SEARCH FOR A WORKSHOP AT [NMSBDC.ORG](https://www.nmsbdc.org)

The **New Mexico Small Business Development Center** Network is here to help and support small businesses during this time of uncertainty. At our website you will find access to live trainings with step by step instructions on federal, state and grant programs available to our small business community. As federal and state programs are updated with new information and guidelines, so will our training classes.

For more information - visit [NMSBDC.ORG](https://www.nmsbdc.org) or contact Brandon Hunt | bhunt@nmjc.edu.

The New Mexico Small Business Development Center (NMSBDC) Network was established in 1989 through a partnership with the US Small Business Administration, the State of New Mexico, the New Mexico Association of Community Colleges, and the New Mexico Association of Independent Community Colleges. The NMSBDC Network State Office is located on Santa Fe Community College campus. The program provides confidential, no-cost business consulting and low-cost business training to entrepreneurs and small businesses throughout the state. Strategically located in 24 communities, we serve all 33 New Mexico counties. NMSBDC consultants have countless years of combined management and ownership expertise and have helped to create more than 35,000 jobs in the state since its inception. Entrepreneurs have access to subject matter experts to help them start, expand, and be profitable. For more information visit www.nmsbdc.org.

Funded in part through a Cooperative Agreement with the U.S. Small Business Administration. All opinions, conclusions and/or recommendations expressed are those of the author(s) and do not necessarily reflect the views of the SBA. All SBDC programs are extended to the public on a non-discriminatory basis. Reasonable accommodations for persons with disabilities and individuals with limited English proficiency (LEP) will be made if requested at least two weeks in advance.
